

## Ramsey Police Needs Your Help

The Ramsey Police Department responded to over 1100 alarms calls in 2008. In addition to the alarm calls we responded to dozens of homes in Ramsey to check on the welfare of residents. Often a neighbor will call the RPD and ask us to check on an elderly resident that they may not have seen or heard from in some time. After checking the home or business, the officers often attempt to contact the "key holder." This is a person that may have a key to property or information on the homeowner. Once we get in touch with the "key holder" we can do a little more investigating to make sure that the person is safe or that the property is secure. For this program to be effective, we need your help. Please take a minute to complete the form with either new or updated information so that we can update our files. As part of the RPD's computer upgrade we hope to have all our files updated by spring 2010.
