For Official Use Only

Permit # _____ Amount Paid: _____ Check # _____ Cash Credit Card Rcvd By: _____

Suspended: _____ Reinstated: _____ Cancel Permit: _____ (Reason) _____

ALARM USER INFORMATION

Alarm registration is required in the CITY OF SANTA CLARA for commercial and residential alarm systems whether prior or new installations, or if you have taken over an existing alarm. This includes systems that are monitored by an alarm company, those that are not, and self-installed systems.

The purpose of alarm registration with the **SANTA CLARA POLICE DEPARTMENT** is to ensure accurate, up-to-date information that facilitates Police responding to your alarmed location. **This is separate from the information you may have already provided to your alarm monitoring company.** It also enables the Police Department to contact responsible parties or alarm repair personnel in an emergency.

- Automatic Dialers are **NOT ALLOWED**
- **Verification.** Telephone verification requires, as a minimum that a second call be made to a different number if the first attempt fails to reach an alarm user who can properly identify themselves to attempt to determine whether an alarm signal is valid before requesting law enforcement dispatch.

Every audible alarm must have a timing device, which automatically shuts off the bell or siren within **10 minutes** after activation or **15 minutes** for systems operating under Underwriters Laboratories standards 365 or 609.

The Alarm Permit Application fee for residential or commercial alarm site is determined by Resolution of the City Council (See Municipal Fee Schedule at www.scpd.org). Your alarm permit will remain valid unless revoked. An Alarm Permit is not transferable to another individual, business, association or similar entity. Notify the Police Alarm Administrator of any changes to your application information within **15 days**.

It is unlawful for any person to activate an alarm system for the purpose of summoning the police except when it is reasonably believed that an attempt is being made to commit a robbery, burglary or other serious crime.

The following sections refer to Santa Clara Municipal Code 8.40:

Section 8.40.010 (a) – The purpose of this ordinance is to encourage Alarm Users and Alarm Companies to maintain the operational reliability and proper use of Alarm Systems and to reduce or eliminate False Alarm Dispatch Requests.

Section 8.40.010 (b) – This ordinance governs systems intended to summon police response, requires alarm permits, establishes fees, provides for penalties for violations, establishes a system of administration, and sets conditions for suspension, denial or revocation of alarm permits.

Section 8.40.30 (a) – No Alarm User shall operate, or cause to be operated, an Alarm System at its Alarm Site without a valid alarm permit issued by the Alarm Administrator. A separate alarm permit is required for each Alarm Site. **(d)** – For those alarms installed prior to the enactment of this ordinance, the Alarm Administrator will notify the Alarm User regarding the permit application requirement.

Section 8.40.040 – Requires that Alarm Companies provide you with proper training in the use of your Alarm System as well as a set of written operating instructions. You should also receive written guidelines on how to avoid false alarms.

Section 8.40.120 – An alarm user shall maintain the premises and the Alarm System in a manner that will minimize or eliminate False Alarm Dispatches. The alarm user shall make every reasonable effort to respond to the alarm location within one (1) hour when notified by the City to deactivate a malfunctioning Alarm System, or to provide access to the premises, or to provide security for the premises.

Section 8.40.140 – After January 1, 2000, alarm companies shall not **program** alarm systems to send One Plus Duress Alarms. Alarm companies may continue to **report** One Plus Duress Alarms received from systems programmed with this feature prior to 1999. Upon transfer of an alarm system after January 1, 2001, alarm companies must remove the One Plus Duress Alarm capability from the system.

ALARM SYSTEM - Means a device or series of devices, including, but not limited to, systems interconnected with radio frequency signals, which are designed to discourage crime, by emitting or transmitting a remote or local audible, visual or electronic signal indicating an alarm condition. Alarm System **does not** include car alarms or alarms that have a sounding device that cannot be heard on the exterior of the alarm site and is not monitored by an Alarm Company.

FALSE ALARM DISPATCH – Means an Alarm Dispatch Request to the police department, when the responding officer finds no evidence of a criminal offense or attempted criminal offense after having completed an investigation of the Alarm Site. **An Alarm Dispatch Request, which is canceled by the Alarm Company or Alarm User prior to the time the responding officer reaches the Alarm Site shall not be considered a False Alarm.**

Alarm Users will be allowed to incur two false alarms at no charge. Each subsequent false alarm dispatch request will be assessed during a 12-month period (See Municipal Fee Schedule at www.scpd.org).

In order to reinstate your two free false alarm responses, a full 12-month period (commencing on the day after the last incident) must pass without a false alarm incident. In addition, any person, operating a non-permitted alarm system (whether revoked, suspended or never acquired) may be subject to a citation for each non-permitted system (See Municipal Fee Schedule at www.scpd.org).

NO RESPONSE – This action may be implemented if an alarm site has eight (8) instances of false alarms within a 30-day period. Police will not respond to any future alarm activation unless proof of corrective action has been submitted to the false alarm administrator. A “No Response” action shall not restrict the Alarm User from requesting police response to a 9-1-1 emergency incident.

CONFIDENTIALITY – Confidential information contained in alarm permit application shall be held in confidence by all employees or representatives of the City with access to such information, unless subject to disclosure pursuant to California Government Code § 6250, et seq.
